Lots of driving Sunday. Reno bloods sport handsome tourneys, and there is hardly a town of its size that can surpass Reno's fine horses and beautiful carriages.

Think of Reno's December weather, and then be thankful that you do not live in the East or the West, or the North or the South, or any other place except Reno.

The communication signed "Oritio" is respectfully declined by the JOURNAL. The JOURNAL is strictly a family newspaper and permits nothing that borders upon vulgarity to appear in its columns.

An electric light pole is to be placed in position on the Crockett corner, Second and West streets, for the convenience of residents in that neighborhood, each contributing a small sum toward the monthly expense of the light. All of which is commendable.

## NO RABBITS.

The Indians Fear the Winter.

Two years ago Humboldt county was overrun with jack-rabbits, and the Indian waxed fat on their flesh. The Legislature, which assembled in January, 1887, passed an act placing a bounty of five cents each on rabbit scalps. This bounty enabled the Indians to get pocket money with which to buy articles that struck their fancy, as well as powder and shot, and they were the happiest and most contented people on the continent. Now they hunt all day without finding a rabbit, and the prospect for plenty of meat this winter is not as encouraging as the red man would like to see.

TASSELL BROS.' NEW GOODS.—Tassell Bros. have received during the last week a large assortment of boots and shoes to replenish the stock in their commodious store. They call particular attention to their boys' and girls' school shoes, advertised. Their ladies', misses' and childrens' shoes are reduced to very low prices. Gents', boys and yonths' shoes are also reduced.

CATTLE SHIPPED TO MASON VALLEY.—John Sibbold, of Golconda, says the Winnemucca Silver State, shipped yesterday to Wadsworth eleven car-loads of cattle, which will be driven from Wadsworth to Mason Valley to be fattened. Hay is plenty and cheap at Mason Valley, while it is scarce and dear in this section.

A conference occurred Friday morning at the Elbow-avenue Hotel between Vice-President-elect Morton and Congressman McKinley. A prominent State politician says the conference means a plan for Secretary of State and Sherman for the Treasury.

## A PECULIAR CASE.

A Witness Testifies That He Swore Falsely Before a Grand Jury.

The White Pine News says: "A peculiar case was tried in the District Court at Ely last week. We refer to the case of the State vs. Fine Mollison. It took two days to get it through Court, at the expiration of which the defendant was acquitted. The peculiar part of the business was that Harry Campbell, who made the charge against, and had him indicted before the last Grand Jury, wheeled round and said he swore falsely on the former occasion, and was induced to do so by the offer of a bribe of \$750 from Governor Adams and W. D. Campbell. He was arrested for perjury, waived examination, and was held in \$2,500 bonds to appear before the next Grand Jury."

## RAILROAD EXTENSION.

From Reno, Through Lassen County to The Dalles—A Railroad to Unite Nevada and Oregon—The Fertile Region that Will Be Developed.

The S. F. Bulletin, of the 1st, has the following: Lassen county people have always been proud of their county and hopeful of its future. The prediction now made freely is that next Spring will see a large immigration to the many fertile mountain valleys in which the district abounds. Recently a number of non-resident capitalists have become interested in the possibilities of the section and have invested largely with a view to colonization. Among these is Clinton C. Hutchinson, formerly of Kansas, and widely known as the founder of the thriving city of that name. With H. Leavitt, an old resident of Lassen, he has become interested in several thousand acres of choice agricultural land northwest of Honey Lake. The Susan river and Willow creek flow through the property, and an elaborate irrigation system is now being arranged. Two dams in the streams which have been built for some years will be utilized, and a large mountain reservoir is being constructed. The river dams will supply water to a large natural reservoir near, that has an area of one thousand acres.

All around, between it and Honey Lake, is the land to be irrigated. The altitude here ranges from 3,940 to 4,050 feet. A big Fresno excavator is now employed in building irrigation ditches. The land is to be subdivided and disposed of to colonists. A stock company will possibly be formed to carry on further operations. On the soil of these mountain slopes, apples, pears and prunes grow thrifty. Natural grasses are very abundant. Four or five tons of alfalfa to the acre form an ordinary crop. The shepherders buy this hay for \$3 and \$9 a ton.

All concede that only better railroad facilities are needed for the rapid development of this region. The Nevada and California narrow-gauge, that runs north from Reno to a point about ten miles east of Honey Lake, and over thirty miles from Susanville, is being extended at a reasonably rapid rate. Ties for 25 miles extension are at the end of the line and are being put down daily. One of the executive officials of this road says that eventually it will be pushed through to The Dalles in Oregon. New York capitalists are backing the project.

Charles and D. O. Moran, the bankers, have over \$400,000 of bonds of the line and will take more it is said. Several wealthy Nevada men are also interested. The road now traverses the full length of Long Valley to the somewhat arid plain east of Honey Lake. From this point the projected route is around the lake to Willow creek, up through Snowstorm Canyon, and across the Madeline plains, passing east of Eagle Lake, touching the Pitt river's South Fork, and following to Alburra, the county seat of Malheur. Thence the road is planned to go northerly through Central Oregon, through the fertile plateau just east of the Cascade, and on to The Dalles, on the Columbia, and on the Oregon Railway and Navigation Company's main line. This will make a road about 400 miles long that will open up some of the finest agricultural and mining regions of California and Oregon.

CIGARS AND TOBACCO.—E. Meyer, the pioneer tobacco and cigar dealer, sells anything to be found in his line. The choicest brand of Havanas or the cheapest brands of domestic cigars may be found at his store, adjoining W. O. H. Martin's establishment. Give him a call for pipes of all kinds.

## A Noble Gift.

PHILADELPHIA, Dec. 1.—At noon today Isaiah V. Williamson of this city gave a Board of seven trustees property valued at \$5,000,000 to be spent by them at their discretion in giving the poor boys of Philadelphia free education in the mechanical trade. This is understood to be only the beginning. If the initial gift bears satisfactory fruit Williamson has signified his intention to double and perhaps triple it. In the judgment of one of the trustees the entire benefaction is not apt to fall below \$12,000,000. Williamson's plan is for the mechanical education of boys between twelve and eighteen years of age. Williamson is a bachelor. He has previously given away \$1,500,000 in public charities here. He is a native of Pennsylvania, aged eighty-six. He got his money in real estate appreciation.

## chewing Gum for a Prize.

Twenty-five gentle maidens, more or less beautiful, sitting upon high platforms and chewing gum to slow music! That is the novel sight that will be presented at the dime museum next week. It will be demonstrated whether it is better to bring the jaws together with a quick, steady movement, making a sound like the click of a telegraph instrument, or to bring them together like two freight trains in collision. A decision can be made between the nervous, spasmodic chew, and the easy, graceful roll like a cow masticating hay. It will be a great week for gum chewers. It is affirmed that one of the contestants can chew in six different languages and smile like a basket of chips at the same time.

## "Too Much South."

The Charleston News and Courier is disposed to take the view that "too much South" killed Cleveland, that the Southern men were too conspicuous in the Cleveland Administration, aroused the sectional hostility of the Northwest, and thus defeated the Democracy. It says:

Whatever the cause, there unquestionably is strong sectional feeling in the North, and whenever a Southern man shows his head there is an anxious desire to hit it. In this way Lamar was hit, and so were Mills and Breckinridge and Carlisle, and all of those who made themselves conspicuous by their disposition or ability. There was too much South in Mr. Cleveland's administration. It was bad enough, from the Northern point of view, when there was so strong a Confederate element in Congress. But it became unendurable when ex-Confederates were favored visitors at the White House, and were at the head of the Departments of State, of Justice, and of the Interior. The latent heat manifested itself when the proposition was made to return the intimated Confederate flags, and all other American flags in the possession of the Government to the States from which the commands who once bore them had come. There was as much noise about it and furious indignation as if Mr. Cleveland had proposed to pay the Confederate debt out of the surplus in the Treasury vaults, or to substitute a monument of Mr. Davis for the dusky statue of liberty on the summit of the National Capitol. There was too much South in it! Not more than the South was entitled to by political strength and personal merit, but the South seemed to have captured the Government, although the South knew to its cost that it had not. It had its effect, and we may as well look the unpleasant fact squarely in the face.

## Happiness and Health.

Are important problems, the former depending greatly on the latter. Everyone is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggists. Sold by Wm. Pinniger, Reno.

## DON'T

Let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boecher's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is, themselves." Bottle only 75 cents. Ask any druggist.

## Syrup of Figs.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-st-17

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

**THE MOST LOVELY PORTION OF RENO.**

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

### RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition. The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

### RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whiteaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

NEW ORLEANS, La.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

EUGENE ROBINSON, Proprietor Robinson's Circus and Memphis and New Orleans Museums and Theatres.

## THE MARCH OF PROGRESS! OUR LATEST IMPROVEMENTS!

"Competition is the Life of Trade," and if you have not seen our latest improved goods you cannot imagine how lively they are. The shoes we have to keep within sight of our Ask your retailer for the JAMES MEANS' \$3 SHOE, or the JAMES MEANS' \$4 SHOE according to your needs.

Positively no one genuine unless having our name and price stamped plainly on the soles. Your retailer will supply you with shoes so stamped; if you insist upon his doing so, if you do not insist, some retailers will coax you into buying inferior shoes upon which they make a larger profit.

Such has been the recent progress in our branch of industry that we are now able to affirm that the James Means' \$3 Shoe is in every respect equal to the shoes which only a few years ago were retailed at eight or ten dollars. If you will try on a pair you will be convinced that we do not exaggerate. Our shoes are original \$3 and \$4 shoes, and those who imitate our system of business are unable to compete with the quality of factory products. In our lines we are the largest manufacturers in the United States. One of our traveling salesmen who is now visiting the shoe retailers of the Pacific Coast and Mountain Region writes from there as follows: "I am more than satisfied with the result line in the hands of 'A No. 1' dealers in every splendid region for us to sell shoes in, because the shoes are so well made and so comfortable that people who wear shoes are paying six or seven dollars a pair for shoes which are not worth as much. Our shoes with their very low retail prices stamped on the soles, which have hitherto ruled in the retail market, are now being sold by the shoe retailers at a profit of 50% and when a retailer puts a full line of goods in the demand for them. Now, kind reader, just stop and consider: assures you that if you keep on buying shoes on the soles, you cannot tell what you are getting, and your shoes will cost you more than what your shoes have cost him. Now, can you afford to do this, while we are trying to help you by stamping our name and the fixed retail price upon the soles of our shoes before they leave our factory so that you cannot be made to pay more for your shoes than they are worth? If you are sold by the shoe retailers in all parts of the country, we will place them easily within your reach in any State or Territory if you will direct one of our salesmen to write to us." JAMES MEANS & CO., 41 Lincoln St., Boston, Mass.
